TASMAN ECOVILLAGE:

On the magnificent Tasman Peninsula, just one hour from Hobart Airport, a new village community is growing, based on permaculture and co-housing principles. It is just a five minute walk from the centre of Nubeena, where many local services are available. Purchase of a small strata title land lot includes a share in community facilities and 19 acres (7.8ha) of common ground. The residential and commercial zoning allows for home-based businesses. All underground services, NBN and pre-approved house planning permits are in place.
